EXPERİENCES

2017-Present Freelancer

I have been working as a freelancer, focusing on designing and creating intricate 3D clothing and digital assets tailored for the metaverse, combining creativity and technical expertise to bring virtual worlds to life.

2015-2016 Sebit IT Visiual Designer

I played a key role in designing and producing high-quality animations and 3D visualizations for Earth and Science courses, contributing to innovative digital education solutions at a leading company in the field.

2007-2011 Architectural Visulation

As part of the design department at a company specializing in interior and exterior decoration materials, I focus on transforming projects into stunning 3D visualizations andpreparing them for compelling presentations.

2003-2006 Advertising Agency

I specialize in creating impactful graphic designs and preparing them for production, ranging from logos and corporate branding to eye-catching posters, sophisticated catalogs, and detailed label designs.
